Summary

I love technology, and my major is computer science. I'm interested in web development and have some projects which use frontend frameworks such as React, Vue, etc. I have fundamentals in HTML, CSS, JavaScript, React, and Vue. Besides, I can develop an API with Express framework for NodeJS. I have got some experience from my projects for web development.

Experience

Time Table

Personal Project

Sep 2021 - Sep 2021 (1 month)

I developed this project for time management. This project uses ReactJs for the frontend and firebase for the backend

E-commerce Website

Personal Project

Jul 2021 - Sep 2021 (3 months)

I have developed an e-commerce website about laptops with React for Frontend and NodeJs for Backend

Develop Weather WebApp

Personal Project

Aug 2021 - Aug 2021 (1 month)

This is my personal project. I developed a weather website using React framework to fetch data from OpenWeatherMap and display the forecast which is corresponding to the city user enter.
